

ISO 14001 Policy

Top Management of Sportsafe Ltd have established the following ISO 14001 policy, which has been implemented at all levels of the company and will be maintained. This shall be achieved by all company people and workers adhering to the following policy:

- The environmental policy is applicable for all the company activities at head office, and whilst carrying out on-site work.
- Top Management have set and will continuously evaluate environmental objectives at management review meetings.
- Will remain fully committed to protecting the environment in the delivery of service and prevent pollution, by investigating when practicable, alternative energy such as renewable and sustainable, considering climate change, biodiversity, and ecosystems.
- Always ensure that all employees and workers are aware of their obligations to comply with company, regulatory, legal and compliance obligations.
- Continually improve the company performance in relation to environmental impacts and the implemented environmental management system.
- Ensure this environmental policy is communicated within the organisation and be available to interested parties.

Approved

Alex Wilkins

Managing Director
